APPLICATION - This product is for professional use only. The user determines suitability for intended use and assumes all risk and liability for application. All purchases and uses subject to the warranty below.

PRECAUTIONS - Avoid contamination with water. Keep container tightly closed. All mixing equipment and surfaces where material is applied must be absolutely dry. Material should be applied within 30 minutes after mixing. Water temperatures reduce the working time. Apply when ambient and material temperatures are 60°F or above. Consult C.I.M.'s Cold Weather Instruction Guide (0-41) for temperatures below 50°F. Do not apply in wet weather or when rain is imminent.

DESCRIPTION & RECOMMENDED USE - CIM ECO 1000 is a viscous liquid component used in two-component blends of CIM ECO 1000 Premix and CIM ECO Activator to form an impermeable seamless membrane on vertical surfaces. The material cures chemically at ambient temperature to form a tack free polyurethane elastomer within approximately four hours.

COVERAGE - Coverage varies with surface texture and type of application. Refer to current C.I.M. Industries Inc. published documents for coverage rates.

DIRECTIONS - Read and understand the published CIM ECO 1000 Technical Data Sheet for this product before opening this container. Use one 25 gallon (2.6 liter) container of CIM ECO 1000 Activator per 3.85 gallons (3.48 liter) per gal of CIM ECO 1000 Premix. CIM ECO 1000 must be mixed in proper ratios. Do not mix partial units. A critical component in application success is proper mixing and applicator technique. Thoroughly blend with CIM ECO Activator by mechanical means and apply in strict accordance with printed instructions and specifications provided by C.I.M. Industries Inc.

DISPOSAL INFORMATION - When material is fully reacted with CIM ECO Activator, it can be disposed of as a landfill. Check your local requirements. When discarding material not fully reacted, this material is hazardous waste. Disposal should be in accordance with applicable local, state and federal regulations.

WARRANTY

CIM warrants as follows: (1) that for a period of five (5) years from the date of shipment to the initial purchaser the Membrane Products, when mixed in prescribed ratios and the prescribed length of time, will not become brittle or crack and (2) will provide a water barrier and (3) that the Membrane Products will, at the time of manufacture, conform to CIM's current quality standards. Notice of writing of water leakage or other potential claim or breach under this warranty, must be provided to CIM within seven (7) days of the alleged leakage, claim or breach.

If CIM determines, at its sole discretion, that a breach of warranty has occurred, CIM's sole responsibility shall be replacement of the purchase price of the non-defecting Membrane Product or, at CIM's option, receipt of a replacement Membrane Product to replace the non-defecting Membrane Product. No warranty shall apply to any Membrane Product subjected to misuse, improper installation, repair, alteration, neglect, accident, abnormal conditions of operation or use in any manner contrary to instructions.

EXCEPT FOR THE EXPRESS WARRANTY CONTAINED IN THIS WARRANTY, CIM MAKES NO REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSES, CONCERNING ITS MEMBRANE PRODUCTS.

NO ONE SHALL BE HELD LIABLE OR RESPONSIBLE IN ANY MANNER FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND OR NATURE, INCLUDING CONSEQUENTIAL DAMAGES OF ANY KIND OR NATURE, WHETHER BY CONTRACT, TORT, NEGLIGENCE, STRICT PRODUCT LIABILITY, OR OTHERWISE.
